Seaboard/FJMC Folks,

On Sunday, 11/22 at 3pm, the Shaare Torah Men's Club is hosting a panel to discuss COVID-related developments. We have a great group representing various fields. I ask that you consider attending and definitely invite your clubs/synagogues/friends to join in the discussion. It would be great to have your support.

Sincerely,
David

Subject: Get all your COVID questions answered at our COVID 360 Panel!
To: <davidafreiman@gmail.com>

Dear David,

[Register HERE](#) and join Shaare Torah, Kol Shalom and other community members **Sunday November 22nd from 3:00 - 4:30pm** for a "360" panel of leading scientists and pharma professionals to address the **latest in the development and manufacturing of COVID vaccines** as well as the virus's effects on **public health, mental health, pediatrics, immunocompromised individuals, and more.**

Moderated by Shaare Torah Men's Club Co-President Todd Haim, the COVID 360 Panel will address the most newsworthy COVID-related topics and help community members answer their most pressing questions.

[JOIN COVID 360 Panel](#)
[ZOOM MEETING](#)

To dial-in:

Call +1 301 715 8592

Meeting ID: 301 869 9842

Passcode: 868070

The panel will answer **frequently asked questions** about the virus and vaccine development and will also answer **participants' questions during the event.**
(Register at the link above to Pre-Submit your questions)

Panelists include:

Ilana Bar-Levav - President of Kol Shalom. She is board certified in internal medicine and has been practicing psychotherapy for individuals, couples and groups for almost 30 years. She will focus on how we each should be attending to our mental health as we get through this and can speak to community resources.

David Berlinger - Biopharma Professional with 25 years of vaccine manufacturing and process development experience, including 6 years at the Vaccine Research Center (NIAID, NIH), former Head of Viral Vaccine Manufacturing at the Pilot Bioproduction Facility (WRAIR, Army), and currently the Associate Director of Manufacturing/Product Development at Altimmune, Inc.

Daniel Douek - Chief of the Human Immunology Section at the NIH Vaccine Research Center, where the vaccine produced by Moderna was designed. Daniel plays a critical role in NIH's COVID-related activities.

Ryan Spiegel - Gaithersburg City Councilmember, immediate past president of the Maryland Municipal League, and experienced government contracts attorney, has helped lead Gaithersburg and Maryland's 156 other cities and towns in developing local government policies, programs, and communications and advocacy strategies responding to the public health, fiscal, and other community impacts of COVID-19.

We look forward to seeing you for this important discussion!
